

# HITTING TARGETS

## GOLD MEDAL PACKAGE

4 HOURS (+30 MINUTE TELEPHONE INTERVIEW) ----- \$460P.P MIN 10PP

These sessions are themed to target key outcomes.

**Themed Sessions** – we have 5 themed sessions these are highlighted by the shooting games and the 40 minute presentation from Olympic and Commonwealth Gold Medallist Suzy Balogh presented in the conference facility.

Themed Sessions also include a 30 minute phone interview with Team Manager and Suzy prior to your session to discuss team dynamics and desired outcomes for the session. Select one of the five themes.

### 1- TEAM BUILDING

The Team Building session particularly benefits from the 30 minute phone interview with Suzy prior to the session. The session is aimed at Team cohesion but also creating heroes from those in the Team who may need a little elevation whilst also potentially gently humbling those in the Team that may require some calming. Overall creating a bound Team that appreciates what each member can offer and that the team is only in full strength when all members play their role. We are able to “stack the deck” a little. The Games played for Team Building reflect each participants input towards the overall target score requiring encouragement of the entire team to achieve the target.

### 2- GOAL SETTING

Games are focussed on “process vs outcome” and the “SMARTER” goal setting principles. Individuals will set goals to achieve whilst shooting and these will be gathered together to achieve an overall Team Goal. We aim at getting the Team members to set goals, achieve them and then feel the satisfaction that comes along from doing so.

### 3- NETWORKING

The group starts off with some “get to know each other” introductory games – formally acknowledging everyone, where they are from, what they do and then a couple of unique memorable features/skills etc. about each person. The Shooting games are set at 4 different levels – individuals, pairs, triples and whole group. We continually cycle participants with varying partners to force varying relationships and encouragement.

### 4- MOTIVATIONAL

Fun and rewarding games are played making everyone feel like a Champion and be part of a winning team – ready to meet challenges.

### 5- STRATEGY

For Teams to be productive there needs to be cohesion, an acknowledgement of how each member’s role vitally fits into the process whilst acknowledging the variance in skill level and ability of individuals. The Games here get the Team thinking of their strengths and weaknesses and strategically planning how best to use them to achieve the overall Target and reward.

#### *Gold Medal Schedule (Start times may vary)*
